Benchmark Scientific BeadBlaster™ 96 Ball Mill Homogenizer

Designed for wet, dry, or cryogenic grinding, high-throughput homogenization with touchscreen control and a secure, see-through lid. Compatible with various tubes, plates, and jars.

SKU: IPD9600

Hektros Tip Cube

Automates pipette tip refilling, handling up to 1,000 tips per drum in under 30 minutes. Supporting tips from 0.1–1,000 µl and reusable TipBoxes, it saves time, reduces plastic waste, and streamlines your lab's workflow.

SKU: MP35450

Micronic Tube Mover

Ideal for cherry-picking or transferring tubes, the 12-position or single-tube Tube Movers for Micronic tubes offer smooth, precise handling with a durable, easy-to-use design.

SKU: TM-MCRNC-1
More Options

G8 Hollow Cathode Lamps

Spectrophotometry

SKU: G803

Provides precise elemental analysis for AAS applications. Featuring a 1.5" single element design and 2-pin connector, it delivers reliable results for trace element analysis in environmental, pharmaceutical, and industrial testing.

Micronic CS700 Screw Cap Recapper

2.0mL Deep Well Plate
SKU: 2R96-007U

96 well 350µL
SKU: A96-607CSB

Reagent Bottles
SKU: Bot1000-387c
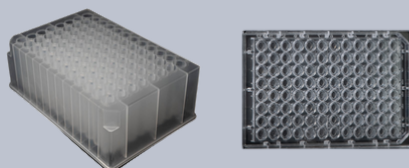

Automates capping, decapping, and recapping of 96, 48, or 24 screw cap tubes in under 30 seconds. It ensures optimal sealing with precise torque, reducing sample evaporation. Compatible with Micronic and other brand tubes, it's ideal for both standalone and automated labs, enhancing efficiency and productivity.

SKU: MP35450

Irish Life Sciences: Plates & Reagent Reservoirs

Explore high-quality plates and reagent reservoirs designed for precision and reliability in your lab. From deep well and round well plates to 8- and 96-channel reagent reservoirs, Irish Life Sciences delivers solutions for efficient workflows and sample integrity.

Insuridge Portable

Ensures reliable temperature control for sensitive samples during transport. Available in two variations, it maintains -10 to 0°C for cold storage or -2 to 8°C for refrigerated samples, lasting up to 72 hours without power. Real-time monitoring and alerts provide secure sample management for labs and fieldwork.

SKU: INV-002

Eco-Friendly Choice (EFC) Range

Sample Storage

SKU: MP51703

Made from 99% recycled materials, the EFC Racks set a new standard for sustainability in life sciences. Available in 96-well formats with options for 0.5ml, 0.75ml, 1.10ml, and 1.40ml tube volumes, they're perfect for those embracing sustainable solutions.

Rainbow Cap Centrifuge Tubes
(Racked or Bagged)

50ml SKU: BY287C2751

15ml SKU: BY287C2716

Sterile 15mL and/or 50mL tubes with vibrant color-coded caps for easy sample identification. Each case includes 10 racks of 50 tubes, ensuring organization and efficiency. Durable and leak-proof, perfect for clinical and research applications.

Baaysci 15/50ml Freezer Racks

NEW

Efficiently organize 15mL and 50mL centrifuge tubes with Baaysci Freezer Racks. Available in multiple configurations to maximize freezer space, these durable racks offer flexible storage solutions and optional locking mechanisms for added security.

SKU: UFD-LT1550

Micronic DT300 Tube Reader

The Micronic Tube Reader DT300 reads 1D barcodes and 2D Data-Matrix codes on tubes and racks. Compact, lightweight, and wireless, it provides flexible scanning for 24-, 48-, and 96-well formats. With a high-capacity battery for up to 15,000 scans per charge, this reliable device enhances sample management.

SKU: MP55127

1.40 mL Tubes

Internal, External, External Hybrid thread

SKU: MP52708

Reliable Storage Solutions! These tubes feature triple start threads for optimal sealing and are available in internal, external, and hybrid thread designs, withstanding -80°C to +110°C. Made in a Class 7 clean room, they are RNase/DNase and pyrogen-free, with pre-racked or pre-capped options and sterilization via gamma irradiation or ethylene oxide.

1.40 mL Tubes
Internal, External, External Hybrid thread

Reliable Storage Solutions! These tubes feature triple start threads for optimal sealing and are available in internal, external, and hybrid thread designs, withstanding -80°C to +110°C. Made in a Class 7 clean room, they are RNase/DNase and pyrogen-free, with pre-racked or pre-capped options and sterilization via gamma irradiation or ethylene oxide.

Insuridge Portable

The Insuridge Portable ensures reliable temperature control for sensitive samples during transport. Available in two variations, it maintains temperatures of -10 to 0°C for cold storage and -2 to 8°C for refrigerated samples, lasting up to 72 hours without wall power. With real-time monitoring and alerts, it provides peace of mind for secure sample management in laboratories and fieldwork.

High Throughput Information Marking System Lambda768

COMING SOON

Coming Soon: High Throughput Information Marking System Lambda768! This advanced automated laser marker labels up to eight ANSI/SLAS format racks of sample storage tubes, engraving text, logos, and batch IDs directly onto the surface. Compatible with 96-, 48-, and 24-well formats, it delivers high-resolution markings and integrates 2D codes for enhanced accuracy and efficiency in modern laboratories.

SPL Guard Arizona

The SPL Guard Arizona rapidly thaws samples from -80°C to 5°C in just 6 minutes using ambient air. It features an automatic stop with an alert, ensuring precise results. Compatible with SBS-format racks, it's perfect for quick, uniform thawing of sensitive samples.

Insuridge Shipper

The Insuridge Shipper provides advanced temperature-controlled shipping with a long-lasting battery, maintaining -10 to 25°C for over 100 hours. With integrated LTE connectivity and an easy-to-use app, it's perfect for secure, long-duration sample transport. Order now and receive a pack of Micronic 96-2 racks included —ideal for optimizing your sample storage.

Sigma STR

The Sigma STR automates tube capping, finishing each in just 7 seconds with precise torque control. Its 500-cap hopper allows continuous operation, minimizing downtime. Compatible with leading tube brands, it enhances lab efficiency and reduces manual strain, ensuring optimal and consistent sealing.

In Stock & Ready to Ship!
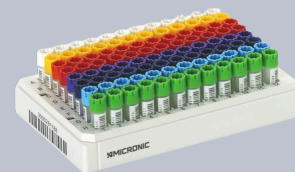

SmartReader™ Multimode

The SmartReader™ Multimode Plate Reader supports absorbance, fluorescence, and luminescence measurements. It features a 10-inch touchscreen and optional PC software. Ideal for ELISA, enzyme kinetics, DNA/RNA analysis, and luminescence assays.

nUVaClean™ UV Pipette Carousel

The nUVaClean™ UV Pipette Carousel sterilizes up to six pipettes with a powerful UV-C lamp, eliminating over 99% of contaminants. Compact and universally compatible, it ensures thorough decontamination with a 28-minute automatic cycle. Perfect for maintaining clean pipettes for sensitive procedures.

Micronic 0.75/1.40mL External Hybrid Tubes

These tubes feature external threads for complete traceability with four coding concepts. The 2-component molding keeps the design sturdy and ensures optimal sealing. Made in a Class 7 clean room, they are RNase/DNase and pyrogen free, ideal for ultra-low temperature storage. Options include pre-racked, pre-capped, and sterilization.

BUNDLE OFFER

Micronic DT510 Tube Reader
High-speed reader capable of scanning 1D and 2D barcodes on tubes/racks in under a second, with keyboard wedge functionality for easy data integration. Purchase with the .75ml-1.40ml Tubes (External Thread Hybrid) bundle to enjoy discounted pricing when ordering ten units or more.

MICRONIC RACK READER DR900

Efficiently read entire racks of 2D Data-Matrix coded tubes in just 3 seconds with the high-speed, camera-based Micronic Rack Reader DR900. Optional 1D Side Barcode Reader reads rack barcodes in only 1 second. Comes with user-friendly Micronic Code Reader Software for seamless lab integration, included at no extra cost.

AutoMATE™ 96 Microplate Pipetting Workstation

The AutoMATE™ 96 offers fast, precise 96-channel pipetting for 96/384 well microplates and PCR plates. Features include a touch-screen tablet, 4-position motorized platform, and interchangeable pipette heads (1-1000µL). Includes user-friendly software for seamless setup/operation.

BaaySCI Upright Drawer Freezer Racks

Maximize your freezer space with BaaySCI's cost-effective Upright Drawer Freezer Racks. Designed for efficient organization, these durable racks fit most standard freezers, including chest, upright, deep, under-counter, and ultra-low temperature models. Easy to install and secure, they ensure your valuable samples are safely stored and easily accessible.
